

# CLA-VAL 90-01 COM

## Communicating Pressure Reducing Valve CV-Log Communicating Logger

### Simple, Reliable and Accurate

- Completely Automatic Operation
- Easy Adjustment and Maintenance
- Quality Approved Materials
- World Wide Support

### CLA-VAL Communicating Valves Main Function

The CLA-VAL SERIES 90 COM reduces a higher inlet pressure to a constant downstream pressure (Pressure Reducing Control) regardless of changing flow rate and/or varying inlet pressure. It also integrates the CLA-VAL CV-Log communicating logger, allowing remote valve management and diagnostics, via the CLA-VAL Link2Valves web platform.

### CLA-VAL 90-01 COM Typical Application

The CLA-VAL 90-01 COM is designed to hold downstream pressure to a pre-determined limit. Its integration to the CLA-VAL Link2Valves web platform thanks to the CLA-VAL CV-Log communicating logger allows operators to manage the valve and access valve behavior diagnostic remotely.

### Make your valve even Better!

- |              |  |
|--------------|--|
| LFS Option?  | <u>Control</u> Low flows or night flows            |
| KO Option?   | <u>Extend</u> valve life with Anti-Cavitation trim |
| KG1 Option?  | <u>Use</u> stem cleaning for harsh water           |
| Maintenance? | <u>Check</u> on periodic maintenance               |
| Environment? | <u>Adapt</u> to high temperatures or frost risk    |
| Security?    | <u>Add</u> hydraulic safety back-up to your valve  |
| Protection?  | <u>Remove</u> excessive system overpressures       |
| Corrosion?   | <u>Protect</u> your valve with upgraded materials  |
